

# EECS@IISc

**Division of Electrical, Electronics,  
and Computer Sciences**  
**Indian Institute of Science,  
Bangalore**

# EECS : Departments and Chairs

**Director: Anurag Kumar (ECE)**

**Divisional Chair: Y. Narahari (CSA)**

**Electrical Engineering (1911)**  
(UGC-Centre for Advanced Study)

**Chair : G. Narayanan**

**Electrical Communication Engineering (1947)**  
(UGC-Centre for Advanced Study)

**Chair : A. Chockalingam**

**Computer Science and Automation (1969)**  
(UGC Centre for Advanced Study)

**Chair : Shalabh Bhatnagar**

**Electronic Systems Engineering (1974)**

**Chair : Joy Kuri**

**Networks**  
FIEEE, FTWAS,  
FNA, FNAE, FASc  
JC Bose Fellow

**Game Theory**  
FIEEE, FNA,  
FASc, FNAE  
JC Bose Fellow

**Power Electronics**  
Satish Dhawan Awardee

**Wireless networks  
& communications**  
FNA, FNAE, FASc  
JC Bose Fellow

**Stochastic control  
& optimization**  
Fellow, INSA, IASc, INAE

**Networks**  
Co-author of  
Scholarly books on  
networks

**80** Academic Faculty

**16** Scientific Staff

**8** Associate Faculty

**7** **Adjunct Faculty**  
Ravi Kannan, Microsoft Research  
Ramesh Hariharan, Strand Life Sciences  
Kumar Sivarajan, Tejas Networks  
Shihab Shamma, University of Maryland  
Venkat Padmanabhan, Microsoft Research  
Vikram Srinivasan, Target Research

**14** Fellowships from  
IEEE, ACM, TWAS

**38** Fellowships from  
INSA, IASc, INAE, NASI

**18** Recognitions: Infosys Prize, Bhatnagar  
Prize, JC Bose Fellowships, ACCS-CDAC  
Prize, Vikram Sarabhai Research Award

**42** Swarnajayanti/ Young Scientist/  
Young Engineer Awardees

**22** Editors/Associate Editors of  
IEEE/ACM/SIAM Journals

## More than 10000 Alumni ...

**N. Seshagiri** – Architect of National Informatics Centre (NIC)

**V. Rajaraman** – Father of Computer Science in India

**S. Ramadorai** – Chief of TCS during its exponential growth

**V.K. Aatre** – Scientific Advisor to Defence Minister and DRDO Chief

**Bishnu S. Atal** – Inventor of linear predictive coding (Bell Labs)

**Nikil Jayant** – pioneer of digital coding and waveform quantization

**Umeshwar Dayal** – fundamental contributions to industry level database design

**Raj Jain** - Pioneering researcher in optic fiber networking

**Sunil Kumar** – Provost, Johns Hopkins Univ. (formerly Dean, Booth School)

**Sudha Murty** – Prolific writer and inspirational social worker

## **Core Research Areas**

**Information Theory, Signal Processing, Communications, Networks, Electromagnetics, Devices & Microelectronics, Theoretical Computer Science, Computer Systems, Machine Learning, Control & Optimization, Image Processing, Computer Vision, Power Systems, High Voltage Engineering, Power Electronics**

## **Thematic Clusters (Division-wide and Institute-wide)**

**Artificial Intelligence, Autonomous Systems, Brain and Computation, Cyber-physical Systems, High Performance Devices, Photonics, Programming Languages & Software Engineering, Security, Smart Energy Systems, Speech and Language Processing, Storage Systems, Visual Analytics, 5G Systems**

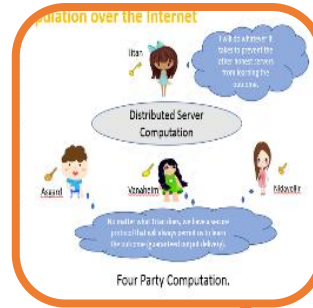

# Thematic Cluster: Cyber Security

IISc designated as **Anchor Institution for Karnataka State CoE in Cyber Security**: Interactions with Bangalore startups, capacity building, outreach and raising awareness on cyber security-related issues

Breakthrough work on secure multiparty computation. Published in tier-1 venues: NDSS, CRYPTO, ACM CCS.

**Arpita Patra (CSA)**

Important advances in non-malleable codes: Preventing tampering of encoded messages.

**Bhavana Kanukurthi (CSA)**  
*TCC (2017), EuroCrypt (2018)*

Cloud platform security

Security for IoT & CPS

Classical & post-quantum cryptography

Automated program analysis & repair

Information theoretic security

Statistical inference & privacy

Security for Smart Cities: secure data collection & analysis, access control & app development

**Bharadwaj Amrutur (ECE)**  
*Ongoing research*

New techniques using trusted hardware for regulating smart devices in restricted spaces.

**Vinod Ganapathy (CSA)**  
*ACM MobiSys (2016)*

# Thematic Cluster: Artificial Intelligence

DEEPFIX: Program debugging and programming language correction using deep learning. **Rahul Gupta (CSA), Aditya Kanade (CSA), Shirish Shevade (CSA)**, AAI (2018); AAI (2019)

Novel algorithms for cross-modal retrieval. Applications in surveillance, forensic analysis.

**Soma Biswas (EE) + Kunal Chaudhury (EE)**, *IEEE Transactions on Image Processing* (2019)

Novel tool to 'fool' Deep Neural Networks. Testing vulnerability for decision-making applications.

**Venkatesh Babu (CDS)**, *IEEE Tran. Patt. Anal. & Machine Intelligence* (2018)

AI

Novel motion-averaging 3D vision framework. Used in commercial products & open source packages.

**Venu Madhav Govindu (EE)**, *IEEE Tran. Patt. Anal. & Machine Intelligence* (2018)

Deep results in consistency of spectral hypergraph partitioning

**D. Ambedkar (CSA)**, *Annals of Statistics*, 2016

Industry support from MSR, Amazon, Wipro, Mindtree, Volvo, BT, TCS

Design of optimal auctions.

**Thirumulanathan(ECE), R. Sundaresan(ECE), Y. Narahari, (CSA)**  
*Journal of Mathematical Economics* (2 papers)

New Division-wide M.Tech. Program In Artificial Intelligence

**Searching for oddball target:** Optimal strategy to employ scarce attention resources using Markov decision process

**Rajesh Sundaresan (ECE) + SP Arun (CNS)**

*IEEE Transactions on Information Theory (2017)*

Algorithm with polynomial time-complexity for computing minimal set of interventions for some families of causal graphs *AAAI (2019)*  
**Arnab Bhattacharya (CSA) and V. Honavar**

Degeneracy (structurally different elements performing same function) in concomitant emergence of place cell responses & intrinsic neuronal properties

**Rishikesh Narayanan (MBU)**  
*PNAS (2014), J. Physiology (2018)*

**ReAI-LiFE:** Rapid evaluation of brain connectomes on GPUs. 100x speedups (Alzheimer's).

**Sridharan Devarajan (CNS) + Partha Talukdar (CDS/CSA), AAI (2019)**

**Object recognition:** Signals related to identity & other attributes are combined multiplicatively in single neurons in higher visual areas for better decoding.

**SP Arun (CNS)**  
*PNAS (2018)*

# Distinguished Visiting Chairs in Brain and Computation

Promoted by a generous endowment to support  
three visiting chair positions and research activities

Pratiksha Trust  
Kris Gopalakrishnan  
Sudha Gopalakrishnan

Shri K. Vaidyanathan Chair  
Professor Shihab Shamma,  
University of Maryland

Smt. Sudha Murty Chair  
Prof. Vasant Honavar  
Pennsylvania State University

Pratiksha Chair  
Christos Papadimitriou  
Columbia University

## Best Paper and Dissertation Awards

Uday Kumar Reddy Bondugula (CSA). **PLDI Most Influential Paper Award**  
Prathamesh Mayekar, Parimal Parag, Himanshu Tyagi (ECE). **ISIT 2018 Best Student Paper Award**  
Lekshmi Ramesh and Chandra Murthy (ECE). **IEEE ICASSP 2018 Best Student Paper Award**  
Chandan Saha (CSA) and Co-authors. **ICALP 2017 Best paper Award**  
Suvam Mukherjee & Deepak D'Souza (CSA) and Co-authors. **SAS 2017 Best Student Paper Award**  
Palash Dey (CSA). **ACM India Doctoral Dissertation Award 2017**

## Young Faculty Awards

Vijay Natarajan (CSA). **Swarnajayanti Fellowship 2017, Mindtree Chair Professorship**  
Mayank Srivastava (ESE). **INAE YE 2017, INSA YS 2018, IASc YA 2017, NASI YS 2018, IEEE EDS 2017**  
Arpita Patra (CSA). **INAE YE 2017, IASc YA 2017, NASI YS 2018, TWAS YA 2017**  
Sriram Ganapati (EE). **DAE Young Scientist Award**  
Uday Kumar Reddy Bondugula (CSA). **INAE YE 2017, INSA YS 2017, IASc YE 2017**  
Chandan Saha (CSA). **INAE YE 2016, INSA YS 2016**  
Siddharth Barman, **INAE YE 2018**

# Connect to the Industry

Research grant leading to multiple collaborative projects seeking fundamental advances in machine learning, optimization, algorithms, and cryptography

**WIRIN (Wipro-IISc Research Innovation Network)**  
Multi-faculty collaborative initiative in autonomous systems and artificial intelligence

**Amazon – CSA Collaborative Initiative**  
Amazon Post-Doctoral Fellowship  
Multi-faculty collaborative project on AI

**Mindtree – IISc Collaborative Initiative**  
Mindtree Associate Professor Chair in AI  
Collaborative research projects

# Deep Technology Start-Ups

**Mimyk**

**Endoscopy training device, with haptics and visualisation**  
**Vijay Natarajan (CSA)**

**Trends**  
 Safety  
 Connected  
 Environment friendly

**Challenges in system design**  
 ECU, Harness; RE, CE, RI, CI, ESD, BCI  
 ADAS Radar: Platform effects  
 Electric drive and motor EM emissions  
 High speed bus: signal distortion

**SimYog approach**  
 Physics based Fast System Level Modeling  
 Sensitivity based System Level Diagnosis  
 Machine Learning for macro-models and quick re-simulation

**Value Proposition**  
 System-Design Tool for Automotive Electronics  
 Reduced Design Cycle Time - Faster Time to Market  
 Optimal Design - Reduced Bill of Materials

**Symyog**  
**Design and Sign-off Tools for Automotive Electronics**  
**Dipanjan Gope (ECE)**

**Multicore Computing Laboratory**

```

# Image
img = imread('img.tif');
[rows, cols, ch] = size(img);
img = imresize(img, [rows/2 cols/2]);
img = im2double(img);

# Mask
mask = ones(rows, cols, 'uint8');

# Blur
img = imfilter(img, 'gaussian', 'replicate');

# Sharpen
img = img - 0.5 * mask;

# Mask
img = img * mask;

# Save
imwrite(img, 'img_out.tif');
    
```

**Automatic parallelization**    **Locality optimization**  
**Memory optimization**        **Polyhedral compiler**

**High Performance**

**Polymage Computing**  
 Software and services  
 For high-performance  
 domain-specific  
 computations (based on  
**PLDI Most Influential Paper**)  
**Uday Kumar Bondugula (CSA)**

# Engagement with Distinguished Visiting Chairs

**Tom Mitchell**  
University Professor, CMU  
Pratiksha Visiting Professor

**Mike Norman**  
UCSD Supercomputing Centre  
Rukmini Gopalakrishnchar Chair

**Rakesh Agrawal**  
CEO, Data Insiqt Labs, USA  
Rukmini Gopalakrishnchar Chair

**Sargur Srihari**  
SUNY, Buffalo  
RG Chair

**Babak Falsafi**  
EPFL  
RG Chair

**Goutam Chattopadhyay**  
Jet Propulsion Lab and CalTech  
BEL Chair for Radar Systems

**Tangali S. Sudarshan**  
University of South Carolina  
CPRI Visiting Chair Professor

**Vijay Vittal**  
Arizona State University  
CPRI Visiting Chair Professor

**V. Chandrasekar**  
Colorado State University  
BEL Chair for Radar Systems

**D.V. Giri**  
CEO, Pro-Tech  
BEL Chair for Radar Systems

# International Review (2017)

**Munther Dahleh**  
MIT

**P.R. Kumar**  
Texas A & M

**Jitendra Malik**  
UC-Berkeley

**Umesh Mishra**  
UC-San Diego

**Krithi Ramamritham**  
IIT-Bombay

**Kaushik Roy**  
Purdue

**Four Day Review of the Division During September 17-20, 2017**

**The review has brought out our strengths and weaknesses**

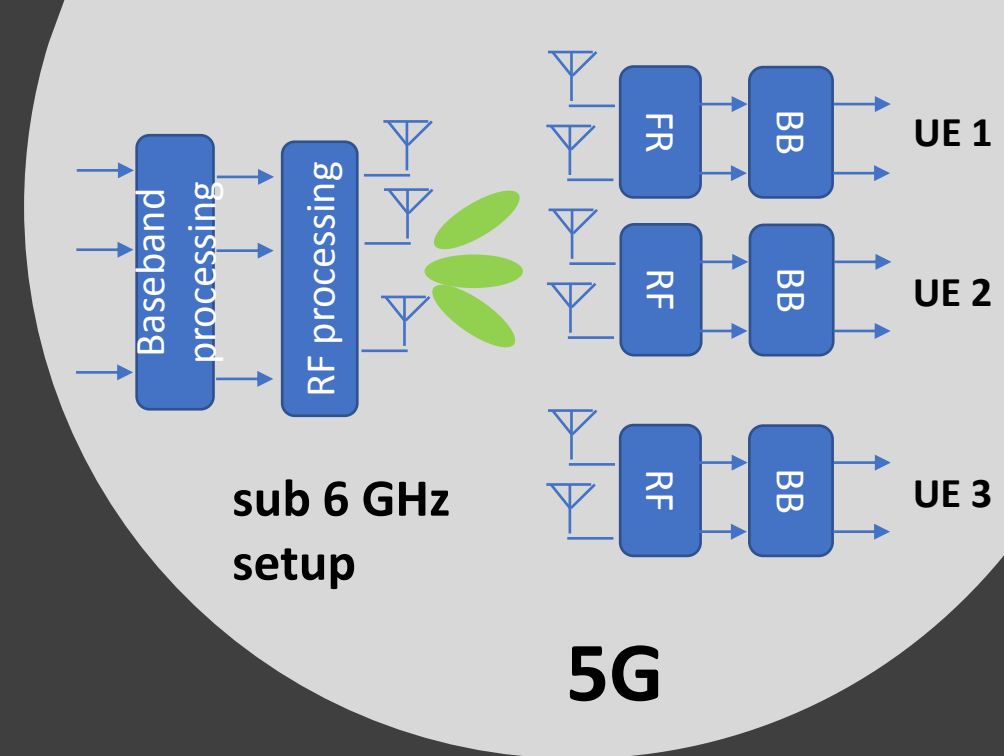

**We are engaged with them for continuous improvement**

# EECS Vision

Strive to be among the world's foremost clusters of electrical, electronics, and computer science researchers, through pursuit of research excellence and promotion of innovation, by offering world class education to train future leaders in EECS, and by contributing to societal needs.

***We are hiring in core areas as well as in thematic clusters. Please apply!***

**Thank you for  
your interest  
and  
participation**

# EECS and IISc: Strengths & Uniqueness

- Equal emphasis on fundamental science, rigorous engineering, and technology innovation
- Culture of fundamental investigations
  - IISc has nurtured curiosity driven research in all areas
  - Independence to pursue individual research goals while being a part of exciting collaborative initiatives
- Best doctoral and masters students in India (and from abroad, soon)
- Optimal teaching loads
- Located in Bangalore which has best of the breed industrial research labs and startup ecosystem
- Availability of high value startup grants

# EECS Alumni

More than **10000** Alumni

## Many Distinguished Alumni ...

**N. Seshagiri** – Architect of National Informatics Centre (NIC)

**V. Rajaraman** – Father of Computer Science in India

**S. Ramadorai** – Chief of TCS during its exponential growth

**V.K. Aatre** – Scientific Advisor to Defence Minister and DRDO Chief

**Bishnu S. Atal** – Inventor of linear predictive coding (Bell Labs)

**Nikil Jayant** – pioneer of digital coding and waveform quantization

**Umeshwar Dayal** – fundamental contributions to industry level database design

**Raj Jain** - Pioneering researcher in optic fiber networking

**Sunil Kumar** – Provost, Johns Hopkins Univ. (formerly Dean, Booth School)

**Sudha Murty** – Prolific writer and inspirational social worker

# EECS Teaching Programs

- M.Tech. (Communication & Networks) 
- M.Tech. (Microelectronic Systems)  
- M.Tech. (Signal Processing)  
- M.Tech. (Electronic Systems Engineering) 
- M.Tech. (Electrical Engineering) 
- M.Tech. (Computer Science & Engineering) 
- M.Tech. (Systems Engineering)  

# EECS Students (August 1, 2017)

<b>Ph.D. (on roll)</b>	<b>344</b>
<b>M.Tech. (Research) (on roll)</b>	<b>99</b>
<b>M.Tech. (Course)(on roll)</b>	<b>302</b>
<b>Ph.D. graduates during 2012-16</b>	<b>199</b>
<b>Ph.D. graduates during 2016</b>	<b>48</b>
<b>M.Tech. (Research) graduates during 2016</b>	<b>20</b>
<b>M.Tech. (Course) graduates during 2016</b>	<b>149</b>

# EECS Publications

	2013-2017	2017
Books	12	2
Journal Publications	712	172
Conference Publications	1118	235
Book Chapters	31	8

**Journals:** All flagship IEEE Transactions and ACM Transactions; SIAM journals; Leading Elsevier Journals; Annals of Statistics, ML, JMLR, AI, Stochastics, Math of OR, JCT, etc.

**Conferences:** FOCS, STOC, SODA, NIPS, ICML, COLT, AISTATS, ICDM, UAI, CVPR, ICCV, SIGIR, SIGKDD, WWW, AAI, IJCAI, INFOCOM, ISIT, ICASSP, Globecom, PLDI, ISCA, SIGMETRICS, ICSE, FSE, OOPSLA, SC, MICRO, etc.

# EECS Interactions

## Collaborative Projects

Google, IBM, Amazon, Flipkart, Microsoft, Intel, AMD, TI, Qualcomm, NetApp, Mozilla, Shakti Foundation, Bosch, Nucleus Software, Volvo, TCS, Wipro

## Consulting Projects

Shell, AOL, NetApp, SAP, MindTree, Wipro, EMC, Evivo Software, Intel, LGSoft, DRDO, Altium, Nimbic, Tetcos, CDOT, CDAC, L&T, Toshiba, etc.

## Unrestricted Research Grants

Google, Yahoo!, IBM, Microsoft Research, Amazon, Flipkart, Adobe Labs, Intel, Accenture, NIDIA, HP Labs, National Instruments, Qualcomm

**Bilateral Programs:** Indo-US, Indo-UK, Indo-French, Indo-Israel, Indo-Swedish, Indo-Brazil, Indo-Dutch

**Universities:** Technion, Gavle, Glasgow, Southampton, CNRS, INRIA, KTH, TU-Delft, EPFL, MIT, Harvard, CMU, Ohio State, Cornell, USC, UCSD

# Some Ongoing National Initiatives

IISc-DRDO Program on Frontiers in Communications, Signal Processing, Control, and Computing

R&D program on high performance devices and algorithms for satellite applications

सत्यमेव जयते  
Department of Science and Technology  
Ministry of Science and Technology  
Government of India

Technology development for 600 V normally OFF Gallium Nitride transistor for reliable power electronic systems

# Enabling Industrial Research

**SID@  
IISc**

**Society for Innovation and Development**  
Long-term collaborative projects, Tech Park, incubation  
<https://sid.iisc.ac.in/>

**CSIC@  
IISc**

**Centre for Scientific Industrial Consultancy**  
Technical and scientific advisory, consulting engagements  
<http://www.csic.iisc.ernet.in/>

**IPTeL@  
IISc**

**Intellectual Property and Technology Licensing**  
IP, Patents, Technology Licensing, MOUs  
<http://iptel.iisc.ac.in/>

# New Age AI

**Prof. Michael Jordan  
UC-Berkeley**

**“Blends ideas from statistics, CS, OR, and other disciplines to design algorithms to process massive data, make inferences and predictions, and help in decision making”**

**Transformative Applications**

```
graph BT; Foundations[Foundations] --> Techniques[Techniques and Algorithms]; Techniques --> Platforms[Computational Platforms]; Platforms --> Applications[Transformative Applications]
```

**Computational Platforms**

**Techniques and Algorithms**

**Foundations**

# Structure of the Curriculum

## Pool A – 19 Credits

- E0 251 3:1 Data Structures and Algorithms
- E1 222 3:0 Stochastic Models and Applications [OR]  
E2 202 3:0 Random Processes
- E1 2XX 3:1 Computational Linear Algebra (New)
- E0 230 3:1 Computational Methods of Optimization
- E1 213 3:1 Pattern Recognition and Neural Networks [OR]  
E0 270 3:1 Machine Learning

## Pool B – Minimum 12 Credits

- E1 277 3:1 Reinforcement Learning
- E1 216 3:1 Computer Vision
- E9 241 2:1 Digital Image Processing
- E9 261 3:1 Speech Information Processing
- E1 254 3:1 Game Theory
- E1 241 3:0 Dynamics of Linear Systems
- E0 259 3:1 Data Analytics
- E2 231 3:0 Topics in Statistical Methods
- E9 206 3:0 Digital Video: Perception and Algorithms

## Project – 21 Credits

## Recommended Electives (Up to 12 Credits)

- E0 265 3:1 Convex Optimization and Applications
- E0 334 3:1 Deep Learning for Natural Language Processing
- E0 268 3:1 Practical Data Science
- DS 256 3:1 Scalable Systems for Data Science
- E9 205 3:1 Machine Learning for Signal Processing
- DS 222 3:1 Machine Learning with Large Data Sets
- DS 265 3:1 Deep Learning for Computer Vision
- E0 306 3:1 Deep Learning: Theory and Practice
- E0 249 3:1 Approximation Algorithms
- E0 235 3:1 Cryptography
- E0 238 3:1 Intelligent Agents
- E2 201 3:0 Information Theory
- E1 245 3:0 Online Prediction and Learning
- E2 336 3:0 Foundations of Machine Learning
- E2 207 3:0 Concentration Inequalities
- E1 244 3:0 Detection and Estimation Theory
- E1 396 3:0 Topics in Stochastic Approximation Algorithms
- E2 230 3:0 Network Science and Modeling
- E1 246 3:1 Natural Language Understanding
- E9 253 3:0 Neural Networks and Learning Systems

# M.Tech. (AI) : A Division-wide Program

## Division of EECS Electrical, Electronics, and Computer Sciences

**We have received 1600+ applications**

**CS, EC, EE GATE disciplines**

**We will be producing 45 to 50 graduates per year**

**Vibrant research cluster with 30+ faculty members and 50+ Ph.D. students spread over multiple departments (CSA, ECE, EE, ESE, CDS)**

**Areas: Machine Learning, Deep Learning, Reinforcement Learning, Convex and Non-convex Optimization, Visual Analytics, Speech and Language Processing, Foundations of AI, High Performance Computing for AI**

**Interdisciplinary Centres (RBCCPS, ICWaR, CISTUP, CBR, DCCC) are working on applications (smart cities, autonomous systems, water, brain, climate)**

**Papers in NIPS, ICML, SIGKDD, AAAI, AAMAS, IJCAI, CVPR, WWW, COLT, ICLR  
12 papers in AAAI – 2019; 8 Books in the area**

**Helping the Karnataka Government in Data Science Education initiatives;  
Engaging with NITI AAYOG on strategic national initiatives in AI**

**Industry Connect: Wipro, Mindtree, Google, Amazon, MSR, Volvo, Shell, BT,...**

**National need for AI capacity building;  
Industry in need of rigorously trained  
Masters and PhD graduates**

**IISc has a vibrant group in AI, cutting  
across Departments (40+ faculty)**

**Vision:** Impart rigorous training in the  
foundations and deep technology of AI  
to produce graduates who can become  
world leaders in AI and lead India's  
march towards leadership in AI

**Transformative Applications of AI**

**Silvio Micali**  
Prof. I.G. Sarma  
Memorial Lecture

**The quest for  
Resilient  
Mechanism Design**

**Sam Pitroda**  
M. Ct. M. Chidambaram  
Chettyar Lecture

**Dreaming Big –  
My Journey to  
Connect India**

**Thomas Kailath**  
IISc Centenary Lecture

**The Process of  
Making Breakthroughs  
in Engineering**

**B. Jayant Baliga**  
IISc Golden Jubilee Lecture

**The IGBT Device:  
Challenges and Triumphs**

**Eric Maskin**  
IISc Golden Jubilee Lecture

**Financial Crises:  
Why they occur and  
What to do about them**
